TECHNICAL SKILLS

- Languages**
C# · SQL · TypeScript · JavaScript · Python
- Backend**
ASP.NET Core · .NET 6/7/8 · .NET Framework
· Web API · EF Core · LINQ · WCF · Blazor
- Frontend**
React.js · ASP.NET MVC · HTML5 · CSS3 ·
Bootstrap
- Cloud & DevOps**
Azure · Docker · Jenkins · GitLab CI/CD ·
Azure DevOps · GitHub Actions · IIS
- Databases**
SQL Server 2008–2022 · Redis · PostgreSQL ·
SSIS (ETL) · SSRS
- Architecture**
Microservices · REST/gRPC · CQRS · DDD ·
SOLID · N-Tier · API Gateway
- Security & QA**
OAuth 2.0 · JWT · RBAC · OWASP · Identity
Server 4 · xUnit · NUnit · TDD

DOMAIN EXPERTISE

- Banking & FinTech
- Logistics & Supply Chain
- HealthTech / SaaS
- Construction & ERP

SOFT SKILLS

- Technical Leadership & Mentoring
- Agile / Scrum Delivery
- Cross-team Collaboration
- Code Review & Quality Gates

LANGUAGES

English
C1 – Professional

French
A2 – Basic

Tamil
Native

EDUCATION

M.Sc. Data Engineering & AI
ESILV, Paris · 2025–2026

MBA – International Business
Pondicherry University · 2017–2019

B.Tech – Computer Science
Dr. MGR University · 2006–2010

Srinivasan Dhakshanamoorthy

.NET Engineer | Full Stack Developer | Backend & Cloud
Seeking Internship · .NET Core · ASP.NET · Backend Engineering · France & Europe

PROFILE

M.Sc. Data Engineering & AI student at ESILV Paris (2026) with 8+ years of enterprise .NET engineering across banking, logistics, HealthTech, and construction. Expert in C#, ASP.NET Core (.NET 6/7/8), REST APIs, microservices, and Azure cloud. Architected high-availability backend platforms serving 100K+ users with zero major production incident over 3 years. Strong background in legacy stack (WCF, ETL/SSIS, .NET Framework) and modern cloud-native patterns. Available immediately for a .NET / Backend / Full Stack internship in France and Europe.

KEY PROJECTS

Banking Task Allocation Engine — Bank of America

- C# · ASP.NET Core 7 · .NET 7 · EF Core · SQL Server · Azure DevOps · OAuth 2.0 · Docker · Jenkins
- Architected a rule-based allocation engine on ASP.NET Core 7 / .NET 7 processing 500K+ daily banking transactions for 100K+ users — N-Tier, Repository Pattern, DI, zero downtime over 3 years.
 - Secured 40+ REST API endpoints (OAuth 2.0/JWT, RBAC, centralised middleware); reduced SQL Server query response time by 60% via composite indexing and parameterised stored procedures.
 - Built end-to-end CI/CD (Azure DevOps, Jenkins, SonarQube quality gates, blue/green IIS) — release cycles 40% faster; mentored 5 engineers on SOLID, CQRS, and DDD.

Vesta Trading & Financial Operations Platform — Cognizant

- C# · ASP.NET Web API · .NET Framework · SQL Server · SSIS · WCF · ETL Pipelines
- Developed and maintained the Vesta application for trade proposal management, daily trade-badge processing, and multi-system BOL price downloads — SSIS ETL pipelines handling daily batch loads with L2/L3 production support across financial operations.
 - Built WCF and REST integrations synchronising 6+ ERP/WMS platforms; optimised SQL Server queries (CTEs, indexed views, partitioning) — data error rate reduced by 45%, report generation accelerated by 35%.

MediFlow AI — HealthTech SaaS (Personal Project)

- ASP.NET Core 8 · .NET 8 · React.js · Azure SQL · Docker · GitHub Actions · JWT · xUnit
- Built cloud-native SaaS MVP on .NET 8: ASP.NET Core 8 REST API (Controller–Service–Repository), React.js SPA, Azure SQL, JWT/RBAC authentication, Docker containerisation.
 - Automated CI/CD pipeline via GitHub Actions with full xUnit/NUnit test coverage and Azure cloud deployment — zero-downtime releases.

PROFESSIONAL EXPERIENCE

Senior Technical Lead — .NET Backend & Cloud

Feb 2022 – Sep 2025

Bank of America | Chennai, India

- Led C#/ASP.NET Core (.NET 6/7) backend architecture for 100K+ users; owned API design, SQL Server optimisation, Azure DevOps CI/CD, and L2/L3 production incident management — zero major incidents over 3 years.
- Reduced deployment cycle by 40% via Jenkins/GitLab CI/CD and blue/green IIS automation; applied SOLID, CQRS, DDD, and microservices patterns; mentored 5+ engineers through Agile/Scrum sprint cycles and code reviews.
- Enforced OWASP security standards, OAuth 2.0/JWT, and RBAC across all API layers; monitored production health via Splunk dashboards — 30–40% reduction in manual operations effort.

Senior Associate / .NET Software Engineer

May 2014 – Feb 2022

Cognizant Technology Solutions | Chennai, India

- Designed and delivered ASP.NET MVC / Web API / C# systems for global banking and logistics clients; built the Vesta trading platform for daily financial batch processing and multi-system integrations across 6+ ERP/WMS platforms via REST and WCF.
- Engineered SSIS ETL batch pipelines processing 3M+ records/day; automated SSRS KPI reporting; refactored 40+ SQL Server queries (CTEs, window functions, composite indexing) — 50% query performance improvement, 10+ manual hours eliminated weekly.
- Provided L2/L3 production support across SQL Server 2008R2, 2012, and 2014 environments; managed incident triage, hotfix deployments, and root-cause analysis across critical banking and logistics workflows.

Senior Software Engineer — .NET & Data Integration

Jul 2017 – Jul 2019

LTI Mindtree | Bangalore, India

- Developed construction ERP Procube (ASP.NET MVC, C#, SQL Server): project milestones, budget tracking, resource management, and performance dashboards.
- Implemented SSIS ETL pipelines from 4+ external sources (MS Project, ERP, billing systems); managed multi-environment IIS deployments — 99.5% platform availability.

Available Immediately
Internship · France & Europe
